Overview

Exempts work on certain types of equipment from the requirement to be licensed as an elevator contractor.

Summary

Section	Description
1	Elevator. Clarifies, with section 2, the definition of “platform lift.”
2	Platform lift. Defines “platform lift” as a powered device for transporting mobility-impaired people on a guided platform.
3	Exemption from licensing. Allows work to be performed on conveyors other than vertical reciprocating conveyors, platform lifts other than those carrying mobility-impaired people, and dock levelers without being a licensed elevator contractor.
